The **John Deere 9RX 710-830** is a true powerhouse on four tracks – robust, wide-legged, and always ready to conquer any large field with style. With up to **830 hp under the hood**, it delivers confident performance, even during heavy pulling operations or in challenging terrain. Thanks to its **four tracks**, it optimally distributes its weight, protects the soil, and ensures superior grip and traction – whether wet, soft, or rocky.

It's not just powerful, it's smart too: modern **precision farming technologies**, a comfortable cab, and efficient hydraulics make the 9RX a reliable partner for anyone seeking performance, comfort, and efficiency on large farms.

In short:

👉 **A powerful all-rounder - tough as nails, smart as a pro.**

First-class cabin

The new CommandView 4 Plus cabin, with its sophisticated cabin suspension, offers unparalleled ride quality and pure driving pleasure with more visibility and space than ever before. Enjoy numerous comfort features such as the 6.5-inch digital touchscreen radio with Apple CarPlay and Android Auto integration and the 6.1 sound system.
